

Wind SQUARE

Ceiling Fan

The perfect solution for suspended ceilings

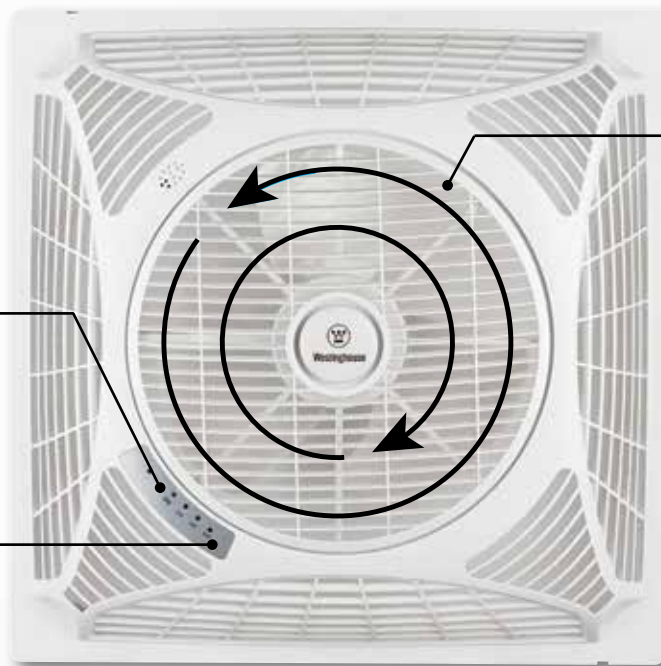

The Westinghouse Windsquare ceiling fan features a low-profile design that doesn't sacrifice performance.

Constructed from durable materials for long-lasting, dependable and quiet performance, simply install the Windsquare in a suspended ceiling to provide a comforting, cool breeze in offices, retail stores or any suspended ceiling application.

Remote control* with wall holder has a programmable timer with 3 options:
- 2 hour, 4 hour,
or 6 hour settings.

Fan display with long-lasting LED lights.

360° grill rotates clockwise or counterclockwise for even air circulation.

Optional frame insert included to accommodate larger suspended drop ceiling grids.

**Requires one CR2025 battery (not included)*

INSTALLATION 4 easy steps.

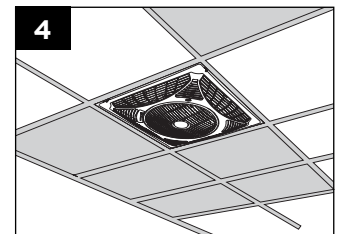

1. Remove one piece of suspended ceiling tile.

2. Insert the ceiling fan into the suspended ceiling.

3. Move another piece of ceiling tile and insert 3 electric power wires into the terminal block.

4. Move back the ceiling tile to its original place and check if they are all properly installed.
