

SOLARGORILLA RUGGED WATER RESISTANT 5V & 20V SOLAR PANEL

In the desert, on safari, up a mountain or simply on the move, the solargorilla portable solar charger gives your powergorilla juice anywhere under the sun. The solargorilla is also a viable charging option for netbooks under 40 Watts and it can even charge any 5V device from the USB output.

solargorilla works via two PV (photovoltaic) solar panels, which generate electric current when they are exposed to sunlight. The solar panels are made of glass which greatly improves the performance of the solargorilla as well as making the aesthetics of the unit better. The green LED on the solargorilla indicates the strength of charge whilst the technically advanced solar panels ensure superb power and reliable performance, all housed in a tough outer casing.

CHARGES:

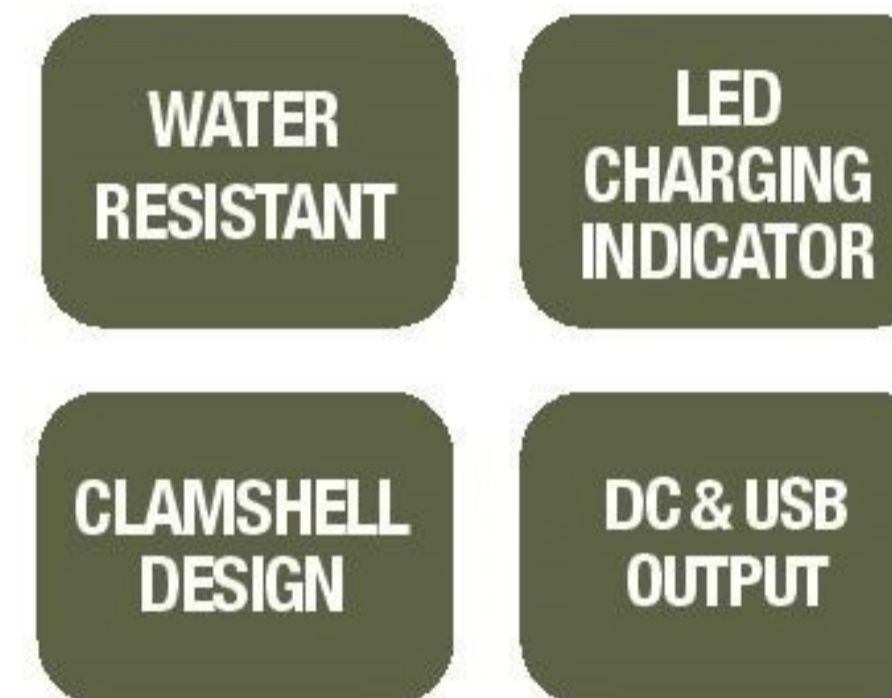

KIT INCLUDES

- solargorilla portable charger
- DC extension cable (2m)
- USB-C to Micro USB tip
- 1m USB to USB-C cable
- Female 12V socket
- gorillanut tip pack
- Neoprene case
- Velcro strap

Part Code: PTL-SG002 TAC
Ean Code: 5060 1769 8455 4

FEATURES:

SPECIFICATIONS

- USB output: 5V 2A
- DC output: 20V 0.5A
- 10 Watt panel
- Dimensions folded (L*H*W): 264 x 200 x 19mm
- Weight: 874g
