

Dino-Lite Foot Pedal SW-F1

The SW-F1 allows you to take a picture with a simple step from your foot using the Dino-Lite or Dino-Eye digital microscopy solutions. The foot pedal is compatible with both DinoCapture 2.0 for the PC and DinoXcope for Macintosh computers. No additional software is required, simply plug in the device into your USB port and it is ready to use. The foot pedal is ideal for operators that require great attention on what they are handling. Great for doctors, assembly line workers, professionals, or casual users that require the additional ease of a foot pedal to take a picture.
