

WIRE ADDRESS

The diagram illustrates two types of connections between a P1 port and a P2 port:

- Charger:** This connection type uses two lines. The P1 port has a red line and a black line. The P2 port has a red line and a black line. The red lines are connected to each other, and the black lines are connected to each other.
- Data:** This connection type uses four lines. The P1 port has a red line, a white line, a green line, and a black line. The P2 port has a red line, a white line, a green line, and a black line. Each line of the same color is connected to its corresponding line on the other port (Red to Red, White to White, Green to Green, and Black to Black).

Function Test:

Don't test it by test machine or test device, or it will be demaged.

2. Use for charging IPAD by connecting laptop and PC

3. Use for data transfer between IPAD and laptop or PC

4.Applies for Ipad, Ipod and Iphone
