VOLTCRAFT®

VOLTCRAFT® - TOP PERFORMANCE IN EVERY WAY

“Since 1982, our product range has been dynamically adapting to the constant changes in the industry. We commit to offering first-class quality to our customers while delivering an excellent cost-performance ratio. This philosophy remains the cornerstone of Voltcraft’s success.”

VMA-3L 16

MEASURING ADAPTER

CE

VERSION 12/21

Nº 1693251

This compact measuring adapter is designed to quickly connect measurement devices to CEE three-phase sockets in order to take measurements in accordance with DIN VDE 0100 regulations. It must only be used in overvoltage category II in AC voltage circuits with a maximum rated voltage of 415 V/AC that are fused with a 16 A (VMA-3L 16) fuse. Measurements can be taken with standard multimeters on the insulated measuring chambers. You can measure the current of phase wires “L1, L2, L3” or the neutral “N” wire as well as the leakage (stray) current on the earth wire. Only use the measuring adapter for the duration of the measurement. Do not leave the measuring adapter connected to the mains circuit for prolonged periods.
This product is intended for indoor use only. Do not use it outdoors. Contact with moisture (e.g. in bathrooms) must be avoided under all circumstances.

HIGHLIGHTS

16 A CEE connector //

4 mm safety sockets //

Robust design //

Secure contact to 16 A CEE sockets //

TECHNICAL DATA

Test voltage	Max. 240 V/AC, 50/60 Hz (L to N/⏚) max. 415 V/AC, 50/60 Hz (L to L)
Test current	Max. 16 A
Overvoltage	CAT II 240 V / 415 V (3~), 50/60 Hz
Dimensions (L x W x H)	97 x 65 x 65 mm
Weight	170 g
