The THM TwinMark printer is based on thermal transfer technology and has two separate printing heads. The two printing heads function independently and make it possible to print shrink sleeves on both sides. The printer offers outstanding printing quality and is suitable for TwinMark shrink sleeves on reels.

The user-friendly system is operated with the M-Print® PRO software.

- An LCD graphic display shows all important status information
- Automatic positioning with margin stops
- It is possible to print identical or different data on top and bottom sides.
- Operation with Weidmüller's M-Print® PRO software
