Sync/Charge Cable

# FLEXX

3in1
Sync/Charge Cable

2M XTRA LONG CABLE

Whether you're at home, in the office or even travelling, you normally carry an excess of charging cables for all your electronic devices.

The 3-in-1 Sync/Charge Cable from the FLEXX range offers the perfect solution.

This high quality cable combines fast & efficient charging with exceptional durability & portability.

TOUGH
Constructed from high-quality metal, the connector is built to withstand heavy usage.

DURABLE
Flexible & sturdy with a reinforced grommet design for exceptional durability.

LONG LASTING
10,000+ bends giving a lifespan of 6x more than the original.

XTRA LONG
Convenient 2-meter long cable -ideal for use at home, in your office & more.

FLEXX

3in1
Sync/Charge Cable

Eye-catching packaging sets us aside from the myriad of similar products in the market & highlights just how tough, durable, long-lasting & reliable the FLEXX range is!

TOUGH + STRONG

FLEXX

3in1
Sync/Charge Cable

Positive Cable
Non recycled high grade copper, tin copper plating & nylon fibre filling. High strand quantity & low AWG. High density Polyethylene material.
Secondary Shield
Spiral assembly compared to braided original apple assembly. High strand count gives increased flexibility.

PVC Jacket
Good all-round material with high-moisture resistance.

28 AWG Data Wire
Fast data transfer performance. Better bending life due to intertwined nylon filling.

Grounding Wire
Non recycled high grade copper, tin copper plating & nylon fibre filling. High strand quantity & low AWG.

Filler
High-elastic nylon fibres giving good flexibility & increased durability.

Primary Shield
Aluminium foiling shields cable data transfer from external interference.

Crochet Braided Sleeve
High-quality elasticated nylon yarn offers strong flexibility with an aesthetic finish. Less likely to kink or tangle.

FLEXX

3in1
Sync/Charge Cable

Solder Pad Insulation
Protects delicate C48 solder pads

Original Apple Lightning
Apple C48 module with full MFI cert

Micro USB Plug
USB 2.0 480 mbps

Micro USB Socket
USB 2.0 480 mbps

Spot Welding
Multiple high precision spot welding

Micro USB Socket
USB 2.0 480 mbps

External Metal Housing
High quality anodised outer metal case

Inner Metal Chassis
Ensures high quality connector leverage strength

Apple Lightning Insulation
Protects IC components

Grommets
Flexible TPE grommet extends bending lifespan. Additional insulation layer

Type C Insulation
Hard silicone molding with increased durability

Micro C Socket
USB 2.0 480 mbps
