**PLEASE NOTE**

This product delivers an output of 12W per USB port. It is possible to charge USB C devices with the included USB C cable.

When using the Power Bank with devices that require a higher input than 12W, the charging process could still work but at a slower rate. The speed depends on the power consumption (for example, if the device is turned off charging will be faster).

**PRE  
CHARGED**

Xtorm chargers are always pre-charged. This means you can start using your new Power Bank from the moment you remove it from the box.

**QUICK  
CHARGE  
3.0**

The Power Bank Explore features Quick Charge 3.0 technology, allowing extra fast charging of mobile devices. If your smartphone uses the same technology, it will charge up to 85% faster!

\*Please note: Not all devices have this technology, check the documentation of your device carefully to see whether it is QC 3.0 compatible.

**AUTO-STOP  
CHARGING**

The Xtorm Power Bank automatically stops charging when the connected device is fully charged. This means you do not have to worry about overloading your mobile devices.

**XB<sup>2</sup>  
Power Banks**

The XB<sup>2</sup>-line is a contemporary and stylish Power Bank range. This line-up of high quality products are accessible, very easy to use and contains all the latest innovations. The best became better; the XB<sup>2</sup> line-up is the successor of the successful and multiply awarded XB-range.

**2  
YEAR  
WARRANTY**

All Xtorm products have a 2 year warranty in case something goes wrong. We ensure that you will receive a replacement if the product fails within 2 years.
