MANUAL

PLEASE NOTE

This product delivers an output of 15W via USB C. This means the charging process works best when the USB C device (e.g. a USB C laptop, tablet or phone) needs an input of 15W or less.

When using the Power Bank with devices that require a higher input than 15W the charging process could still work, but at a slower rate. The speed depends on the power consumption (for example, if the device is turned off charging will be faster).

PRE CHARGED

Xtorm chargers are always pre-charged. This means you can start using your new power bank from the moment you remove it from the box.

QUICK CHARGE 3.0

The Power Bank Discover features Quick Charge 3.0 technology, allowing extra fast charging of mobile devices. If your smartphone uses the same technology, it will charge up to 85% faster!

*Please note: Not all devices have this technology, check the documentation of your device carefully to see whether it is QC 3.0 compatible.

NEW STANDARD USB C

The XB202U Power Bank Discover is fully compatible with the future USB-C charging standard. This enables charging a USB-C laptop.

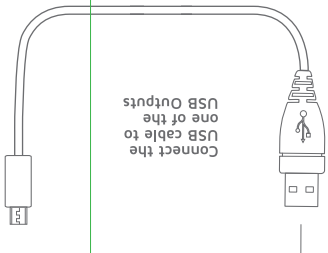

XB² Power Banks

The XB2-line is a contemporary and stylish Power Bank range. This line-up of high quality products are accessible, very easy to use and contains all the latest innovations. The best became better; the XB2 line-up is the successor of the successful and multiply awarded XB-range.

2 YEAR WARRANTY

All Xtorm products have a 2 year warranty in case something goes wrong. We ensure that you will receive a replacement if the product fails within 2 years.

Connect with your mobile device using the micro USB cable or your own USB cable. Expect 1-2 hours* charging time For iPhone/iPad use own USB charging cable. * By ideal conditions

Connect the USB cable to one of the USB Outputs

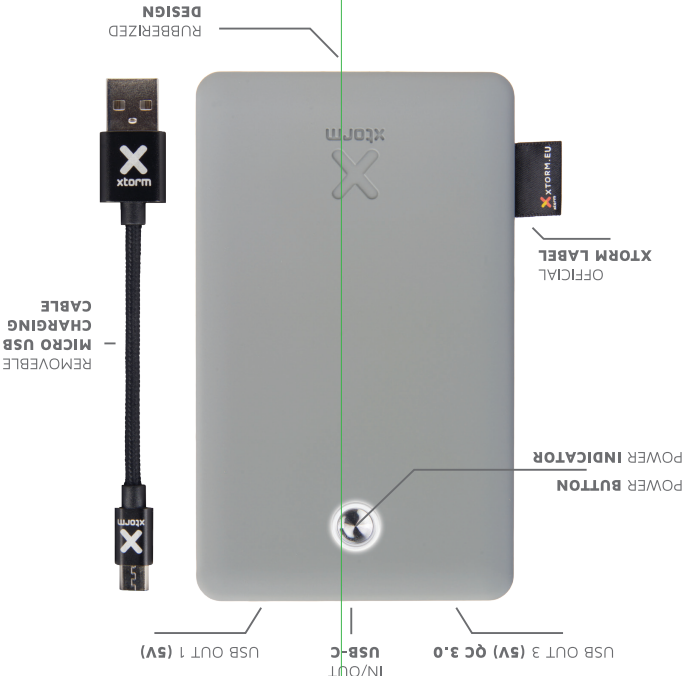

All Xtorm chargers are pre-charged. You can instantly start charging your mobile device.

2/7 QUICK START | FIRST USE

SPECIFICATIONS

XB² Power Banks

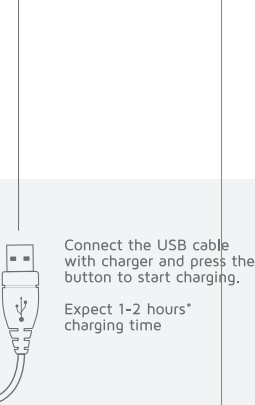

XB² The best became better.

3/7 CHARGE YOUR MOBILE DEVICE

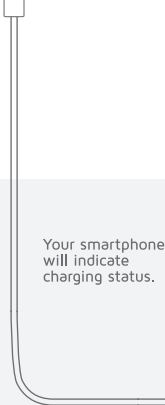

Connect with your mobile device using the micro USB cable or your own USB cable

For iPhone/iPad use own USB charging cable.

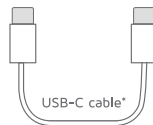

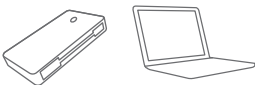

Connect the USB cable with charger and press the button to start charging.
Expect 1-2 hours* charging time

Your smartphone will indicate charging status.

* By ideal conditions

4/7 CHARGE YOUR LAPTOP WITH USB C
only available on latest laptops (with USB C)

*USB-C to USB-C cable sold separately.

1. Connect your own USB-C to USB-C cable with the USB-C output of the Power Bank.
2. Connect the other USB-C plug of the cable with the USB-C input on your laptop.
3. Press the power button to start the charging process.

Alternative:
Use the supplied USB to USB-C cable. Connect the USB Plug of the cable with the Power Bank and the USB-C plug in the USB-C input of your device.
CAUTION this alternative may effect the charging time, the Power Bank now works as external battery.

5/7 CHARGE 3 DEVICES AT THE SAME TIME

When charging several devices simultaneously the auto power management chip automatically choose the right charging

speed and efficiently divides the power between the attached devices.

Port 2 is only for USB-C devices.

6/7 CHARGE THE POWER BANK

USB-C

Connect the USB-C cable with USB-C IN.

METHOD 1:
Connect the USB cable to the USB Port of your PC/laptop.

Expect 7-12 hours* charging time

METHOD 2:
Connect the USB cable to your AC adapter

Expect 7-9 hours* charging time

* By ideal conditions
