

Premium Gold DVI-D Dual Link Cable, 1m
Part No.: 37141

Description

- Connectors: DVI-D Dual Link Male to DVI-D Dual Link Male
- 24K gold plated connectors for improved signal quality and resistance to tarnishing and corrosion
- Triple shielded, low attenuation cable design
- The patented, unique RF-BLOK full metal connector greatly reduces interference and provides increased EMC shielding without the need for a ferrite core
- Supports DVI resolutions up to 2560x1600 (WQXGA)
- Supports HDTV resolutions up to 1080p
- Available in lengths up to 10m
- Also available as an
- 25 Year Warranty

Technical details

The LINDY Premium Gold DVI-D Dual Link cable features an advanced design and construction for the highest quality connection and maximum reliability.

24K gold plated metal connectors provide 360⁰ EMC shielding, in addition to the triple shielding provided throughout by our high quality cable, to prevent interference or signal deterioration. Constructed from the highest quality copper wire, the LINDY Premium Gold DVI-D Dual Link cable features a low level of attenuation to ensure perfect image reproduction at all cable lengths.

Capable of transmitting DVI resolutions up to 2560 x 1600 (WQXGA), as well as all standard HDTV resolutions up to 1080p, the LINDY Premium Gold DVI-D Dual Link cable is perfect for use with High Definition digital monitors, displays and projectors.

Why choose LINDY Premium Gold DVI-D Cables?

RF-BLOK Shielded

Our patented RF-BLOK connector avoids potential high pressure and temperature damage that can occur during the injection moulding process. The one piece, seamless, all metal solder-less design results in superior shielding, low resistance, and extremely high reliability without the need for ferrite cores, making the cable less stressed and more flexible.

Low Attenuation Cable Design

Our advanced low attenuation cable uses the highest quality copper and triple shielded construction to enable perfect image and sound reproduction at longer transmission distances.

Value For Money

Premium Gold DVI-D cables offer incredible value for money. We're confident you won't be able to find any equivalent, high quality long distance DVI-D compliant cables at such competitive prices.
