

DisplayPort Extension Cable, 2m

Part No.: 41624

Description

- DisplayPort 1.2 HD 1600p compatible
- Full support for 48 bit Color depth high definition video, multi-channel digital audio and DPCP
- 24K gold plated connector pins
- Supports resolutions up to 2560 x 1600 and 1600p
- Supports 8 channel, uncompressed 24bit audio
- Bandwidth: 2.7Gbps per lane (total10.8Gbps)
- DisplayPort compliance certified
- 10 year warranty

Easily extend your DisplayPort connections with this superb DisplayPort Extension cable. It benefits from advanced design and construction to provide the best possible performance and reliability. This 1600p compatible cable has 24K gold plated connector pins to ensure superb signal integrity and corrosion resistance. The shielded cable design allows consistent performance, even over longer transmission distances.

DisplayPort - The new standard for maximum display performance

DisplayPort is the next generation digital display interface standard designed to replace DVI, LVDS, and eventually VGA. DisplayPort delivers a higher performance, enables exciting new monitor designs and improves digital display connectivity.

All Digital

No compression, no conversion, pure digital direct from the source as it was meant to be seen and heard.

One Cable

All of your HD video and audio in one cable. Say goodbye to cable clutter. One DisplayPort has over twice the capability of one single channel DVI cable.

Technical details

- 10.8 Gbps forward link channel supports high resolution monitors up to 2560 x 1600 with a single cable
- 8/10 bits data transmission
- Supports colour depths of 6, 8, 10, 12 and 16 bits per component
- 128-bit AES DisplayPort Content Protection (DPCP) support
