The Lindy CAT6 RJ45 S/FTP patch leads are manufactured and tested to conform to ISO 11801 specification. The unique snagless strain relief design prevents damage to the connector latch during installation and removal. Every cable is 100% performance tested and comes with the Lindy “no surprises” guarantee.

These cables are ideal for connecting computers, hubs, switches, print servers and patch panels as well as finding more and more uses in AV applications and security camera systems.
