

## DisplayPort 1.2 to HDMI 4K30/DVI/VGA Adapter

Part No.: 41028

### Description

- Connect a DisplayPort computer to HDMI, DVI or VGA display
- Supports resolutions up to 4K 30Hz (HDMI) or 1920x1200p (DVI/VGA)
- Supports HDCP/DPCP content (HDMI/DVI only)
- 2 Year Warranty

Perfect for filed based and BYOD applications this DisplayPort/Thunderbolt adapter offers a costeffective solution for connecting a HDMI, DVI or VGA equipped high definition monitor, projector, or LCD screen to a DisplayPort equipped Notebook or PC.

With its lightweight, low profile design, the adapter easily fits into a Notebook bag and simply expands your available connectivity options, so you can connect to the most commonly used digital and analoge video equipment, without havin to carry multiple adapters. Support for resolutions up to 4K 30Hz Ultra HD (HDMI only) allows you to connect to very highest resolution displays and projectors, so you will never have to sacrifice picture quality.

Please Note: Only one output channel may be used at a time.

Package Contents:

DisplayPort 1.2 to HDMI, VGA & DVI-D Active Adapter Converter

### Technical details

- Input: DisplayPort Male
- Output: VGA Female & HDMI Female
- Only one output can be used at a time

- Chipset: VGA : ANX9833 // HDMIDVI : PS8339B
- DisplayPort 1.2 Compatible
- Supports Resolutions up to 3840x2160 @ 30Hz – HDMI
- Supports Resolutions up to 1920x1200 @ 60Hz – DVI/VGA
- Supports 8/10/12bit colour depths
- Supports HDCP 1.4
- Powered via DisplayPort, no external PSU port
- Transparent operation no configuration required
- Housing: Black ABS Plastic
- Cable Length: Approx. 15cm
- Power Consumption: 700mW
- Operating Temp: 00C ~ +70<sup>0</sup>C
- Working Humidity: 10 ~ 85% RH
