

## **DVI-D / DisplayPort Cable, 5m**

Part No.: 41979

### **Description**

- Converts a DVI-D signal into a DisplayPort Signal
- Supports resolutions up to 1920x1200p 60Hz
- Plug & Play - simple to install and use
- Low power, can be powered by DVI-D or USB
- 2 Year Warranty

This adapter cable accepts video signals via DVI-D input and converts it into a DisplayPort signal. This allows DVI-D equipped workstations or PC's to be connected to modern DisplayPort monitors, with support for DVI-D single link resolutions up to 1200p 60Hz (1920x1200).

Due to its lower power design the converter can typically be powered directly from a PC's DVI-D port, in cases where the power output of the DVI-D port is insufficient (lower than 450mW) the integrated USB cable can be connected to a USB port or USB power supply to power the converter.

### **Package Contents:**

DVI-D to DisplayPort Adapter Cable

### **Technical details**

- Supports DVI-D single link up to 1.65Gbps
- Input: DVI-D Female / USB Type A (0.25m)

- Output: DisplayPort Male
- Supports HDCP/DPCP
- Cable Length: 5m
- Colour: Black
- Chipset: STDP2600
- Environment Operation Temp -20<sup>0</sup>C to +80<sup>0</sup>C
- Working Humidity 20 to 90% RH Non-Condensing
