

Single Gang Snap In Face Plate (2 Module)

Part No.: 60541

Description

- Supplied with fixing screws and labels
- May be surface or flush mounted
- Can accommodate 2 modules from our Modular AV Extender Wall Plate System or AV Face Plate System
- A blanking plate can be used if only a single module is installed
- Requires a back box with a minimum depth of 44mm or greater
- Dimensions: 86 x 86mm
- Colour: White
- 2 year warranty

Use in conjunction with a Single Surface Patch Box.

This single gang face plate is designed to be used with the LINDY Modular AV Extender Wall Plate System or AV Face Plate System which are designed to extend a combination of audio and video signals over low cost Cat5e/6 cable.

Choose from a range of snap in modules, including VGA, RCA/Phono and S-Video combinations.

2 modules can be installed in this face plate. If installing a single module, a blanking plate can be used for a tidier installation.

Also available are a range of accessories including face plates, back boxes and bulk cable for a total extender solution.
