For models:

PS1201CA (CLICKALARM) - 9V DC Optical Smoke detector

Five Year Limited Warranty

The manufacturer warranty this product (excluding the battery) to be free from defects in materials and workmanship for five years from the date of purchase.

This only applies if the detector is used in the normal way and is serviced regularly. The warranty is also conditional on the smoke detector not having been modified or subject to attempted repairs. The warranty excludes incidental and consequential damages.

Your statutory rights as a customer are in no way compromised by this warranty. If you think your smoke detector is faulty, do not attempt to repair it, as this will invalidate the warranty. Return the smoke detector.
