- Cable Length: 60mm
- 10 Year Warranty

The LINDY 3.5mm Stereo Headphone Splitter cable allows you to connect two sets of headphones to one audio device. It simply splits the stereo signal to provide each user with stereo sound, making it ideal for use with iPods, MP3 players and portable DVD players.

Its cable design is less bulky than typical headphone splitters making it easier, more flexible and neater to use with portable devices.
