Vibrasonic Molechaser

For getting rid of moles, voles, field mice and ants

The Vibrasonic Molechaser is a high quality pest repeller with integrated vibration motor which helps fending off animals continuously. Creatures living underground are dependent on an acute sense of hearing and are very sensitive to vibrations. The Gardigo Vibrasonic Molechaser takes advantage of this trait by emitting vibrations and noise at intervals of 18 seconds. Depending on the structure of the soil, all animals living in the ground within 1250 m² will register this vibration and find it most irritating. Quieter areas will appear more pleasant to them and most of the ground diggers will try to move away from the sound. The Vibrasonic Molechaser has no effect on worms or pets. The high-quality aluminium enclosure is durable and resistant against corrosion. Batteries can be changed without having to remove the device from the ground.

Additional information

- **Dimensions:** 5 x 41 x 5 cm (W x H x D)
- **Packaging dimensions:** 6 x 42 x 6 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 36 units per package

Specifications

- **Covered area:** 1250 m²
- **Noise and vibrations**
- **Interval:** 18 sec.
- **Voltage:** 6V DC
- **Batteries:** 4 x battery 1,5V D-cells (not included)
- **Battery life expectancy:** 4 to 6 months
