Spider-Repellent LED

with LED night light

There usually is no reason to be afraid of spiders, but we cannot turn off disgust and fear at will. This is why many people need a way to control spiders around the house.

The Gardigo Spider-Repellent is designed to keep arachnids away by emitting an ultrasonic signal. These tones, inaudible to humans, can be unpleasant to spiders. They will prefer to inhabit a quieter place.

The ultrasonic Spider-Repellent can also be used as a night light. Its modern design will fit nicely into any living room.

Additional information

- **Dimensions:** 6.5 x 6.5 x 6.8 cm (W x H x D)
- **Packaging dimensions:** 7.5 x 14.5 x 7 cm (W x H x D)
