Smart AC Control

Smart AC Control V3+

The smart way to control your AC.

The tado° Smart AC control is your Climate Assistant that takes care of your comfort at home and helps to reduce your energy bill.

Save money. Save energy and reduce your energy bill.

Anytime. Anywhere. Control your AC from anywhere with the tado° app on your phone.

More Insights. Clear overview of your climate history and savings.

Effortless Setup. The tado° Smart AC Control connects to your Wi-Fi, no additional wiring is needed.

Energy Savings Guarantee Save or get your money back within the first 100 days.

Multi-Room Control. Control multiple rooms separately with the tado° app.

Healthy Climate. The Climate Assistant helps you to keep a healthy climate at home.

Intuitive Control. Let tado° control your AC, so you don't have to.

Comfortable climate. Enjoy the perfect room temperature at all times - but only when someone's at home.

Skills for your Climate Assistant

Geofencing notifies you to turn off your AC when no one is at home.*

Weather Adaptation integrates weather forecast information to assist in reducing your energy consumption.

Statistics and Reports transparently display temperature & humidity profiles, cooling activity, and energy savings.

Air Comfort helps you keep a healthy & comfortable climate at home.

Open Window Detection notices open windows and lets you turn off the AC effortlessly.*

Smart Schedule – setup your individual schedule, as simple or as complex as you need it to be.

Auto-Assist for even more comfort. You can automate Geofencing and Open Window Detection.**

* You can automate this skill with Auto-Assist

**Auto Assist: available in-app, €/£2.99/month, €/£24.99/year

Easy Setup

Wi-Fi   Infrared (IR)

Router   Smart AC Control   Air Conditioner
or Heat Pump
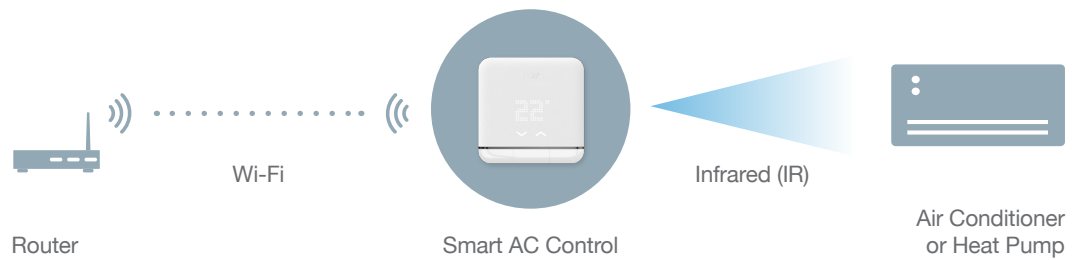

Compatibility

Compatible with ACs with an infrared remote control with a display.

The Smart AC Control works with air conditioners with an infrared remote control that displays the current settings (for example, mode, target temperature, and fan speed). It controls split, multi-split, in-window, and portable units from all manufacturers.
