Water resistant (IPX5)

Find your way in every weather

Measures your...

Speed, time, distance, calories burned and more

Long-life rechargeable batteries

Up to 10 hours performance

Meet the Mio CycloTM 210: the easy-to-use bicycle navigation device for anyone who enjoys cycling. With cycle paths and road maps pre-installed, you are able to get started right out of the box.

The Mio CycloTM 210 allows you to navigate easily from point A to B or to follow your own preferred routes. If you choose to use the unique Surprise MeTM-feature, the Mio CycloTM 210 will calculate three surprising bicycle routes based upon your entered time or distance. This is the ideal feature for anyone who has seen all the local routes and for those who like to be surprised in an unfamiliar region. This feature will continuously offer new bicycle routes, even if you always start from the same point.

The turn-by-turn navigation effortlessly guides you, indicating every instruction with a clear sound alert. With its large 3,5" touch screen, the simple menu structure and clear on-screen buttons, the Mio CycloTM 210 offers you true ease of use.

The rugged waterproof casing (IPX5) ensures you can go cycling in any kind of weather, rain or shine. And with the long, rechargeable battery life of 10 hours, you can enjoy longer distances without having to worry about finding your way back home. Thanks to the pre-installed points of interests (POIs), such as bicycle shops, restaurants and emergency locations, you will always be able to locate some refreshments or a new tyre with ease.
