

**1** Connect the male USB of Playbulb String with the attached USB mains adapter.

Now connect the USB mains adapter to your socket.

**Safety Instructions:**

- The Light String itself is IP65 waterproof. But please note that the USB power adaptor as well as the Micro-USB port of the Playbulb String is not suitable for outdoor usage. You can seal the Micro-USB port with an electrical tape.
- This item including its packaging is not a toy! Thus keep it out of the reach of children!
- Before initial operation, check for any broken or damaged conducting paths!
- If you notice any damage or defects in operation, be careful not to touch the LED string or mains adapter. First, turn the socket fuse off and then carefully remove then the mains adapter from the wall socket and contact your dealer or our customer service desk.
- For safety reasons, we recommend that you pull the mains adapter out of the wall socket when it is not in use, so as to prevent any damage caused by dangers such as lightning and overcurrent.
- Please note, even if the light strip has been turned off via your smartphone, the mains adapter is still switched on and sending the Bluetooth signal.
- Do not expose the product to any mechanical pressure. Shocks, loads or falls from a low height can cause damage.

**2** The light string should now start shining.

Use your smartphone to search for „Playbulb X“ in the Apple App Store or Google Play Store and install the app.

Alternatively, you can also read out this QR code with a QR code scanner app:

**3** Please start the app now and tap on connect to the right of the shown Playbulb String. Once you are connected, tap on the Playbulb logo or symbol. You can now control color effects, brightness, timer functions and much more directly from the app.

To set up a automatically on/off-timer for Playbulb String:

Open the Menu (left top) and click "Timer" and then choose "Wake"

Enable the Timer and set up the planned time to start the lights. You can choose a preset color.

Now tap "Sleep" and set up the planned time to turn of the lights. Save the settings.

You now need to control the brightness to the left so the lights of Playbulb String will turn off. The lights will now automatically start to the preset time.

Please note: The bluetooth signal is still active now. But the energy consumption of the bluetooth signal is below 0,01% of the general energy consumption while lighting up.

The timers are active as long as the Playbulb String keeps plugged to the mains adapter.

**Warranty Programme:**

Thank you for your purchase of MIPOW's product. MIPOW warrants that the product is at the time of its original purchase free of defects in workmanship and material. This Limited Warranty for the product shall last for twelve (12) months from the date of original purchase. This original warranty card and original invoice must be presented at the time you require warranty service or such warranty will be voided. This limited warranty is valid only if the product is used for the purpose for which it was designed. It does not apply to damage or loss caused by negligence; physical abuse; misuse; accident; exposure to moisture; dampness or extreme temperatures; unauthorized modifications; unauthorized opening or repair; forces of nature; or other actions beyond the reasonable control of MIPOW. In case of when the warranty does not apply, a repair or replacement charge will be incurred. The customer shall be responsible for sending the defective product to and collecting the repaired or replaced product from the service center.

**Disposal / Environment Protection:**

The light bulb is made up of metal parts and plastic parts. In reference to European Union directive 2002/96/EC and the related national legislation, please note that electronic devices are recyclable waste and must not be disposed of in the household waste.

At the end of its service life, dispose of the product according to the relevant statutory regulations.
