

# Hikvision Fast Fever Screening Solution for Retail Shop

HIKVISION®

## Solution Introduction

Hikvision's fever screening thermographic cameras are designed to detect elevated skin temperatures for rapid and preliminary fever screening at shop entrance and to take further guidance for the suspected fever patients.

Easy installation and operation;  
cost-effective deployment

Skin-temperature based detection in high accuracy  
( $\pm 0.5^{\circ}\text{C}$ ) without surrounding interference;  
simultaneous fever screening for up to 30 persons

Fast fever screening with  
elevated temperature alarm  
(pop-up image/audio warning)

## Solution Components

**HD Bullet Fever Screening Thermographic Camera**

- AI face detection, multiple targets detect at same time
- Video mode: Bi-spectrum image fusion
- accuracy:  $\pm 0.5^{\circ}\text{C}$
- Flexible tripod or wall mounting

**Network Video Recorder**

- 2 HDMI outputs, 1 VGA port, 1 CVBS output
- Supports temperature triggered alarm
- Pop-up Image and audio warning for temperature exceptions

**LED Monitor**

- 21.5" 1080P, HDMI/VGA input, BNC in, BNC out
- Build-in speaker
- Multiply inputs: HDMI, VGA
