1810802 DMKI-FPTER0

designation	Soliris Mod/Var Slim receiver RTS plug
reference	1810802
range	RTS receiver

## FUNCTIONS

Soliris Mod/Var Slim receiver RTS plug is dedicated to the J4, J5, J7 and Orienta M / MU actuators and to the Telis Mod/Var RTS remote controller.

Possibility of recording up to 12 RTS transmitters & 3 RTS sensors.

It is compatible with all RTS remotes. Two tilting modes are possible; i.e. EU or US(default).

The "My" position is set per default, EVB in down position with slats oriented at 45°.

With the Telis Mod/Var RTS remote, the slat tilting is done thanks to the scroll wheel.

Possibility of adjusting the end limits of J4WT motors.

## TECHNICAL SPECIFICATIONS

Box	Material Color Size Protection factor against solid & splashproof	A70 GF35 FRV0 Black 130 x32 x33 mm IP 54
Power supply	Voltage Frequency	207VAC - 253VAC 50Hz
Stand-by power dissipation		1,1W
Output load	Current	3.0 A max cos $\varphi$ > 0.6
Antenna	Length	integrated
Frequency		433.42 Mhz +/- 100 kHz
Sensitivity		-103 dBm with 20 dB SINAD
Range of communication		200 m free field
Modulation type		100% modulation On Off Keying
Protocole		RTS
Standard		R&TTE: EN 60730 - 1 EN 300220 - 3 EN 301489 - 3
Temperature range	Storage Working	-30°C / + 80°C -30°C / + 70°C
Drop test		1 m (in packaging)
Wear resistivity Cleaning products resistivity		
Weight		approx. 100g
