

## INDUSTRIAL POWER SUPPLY

This 800 W industrial power supply with an output voltage of 65 V and max. output current of 12 A is suitable for larger projects such as CNC machines with NEMA 23 or NEMA 34 stepper motors.

## MAIN FEATURES

|                     |                                               |
|---------------------|-----------------------------------------------|
| Input voltage       | 90 - 132 V AC and<br>180 - 264V AC 50 / 60 Hz |
| Nominal voltage     | 65 V DC                                       |
| Max. output current | 12 A                                          |
| Max. output power   | 800 W                                         |
| Special features    | active cooling                                |
| Dimensions          | 241 x 125 x 65 mm                             |
| Items included      | JT-RD6012-NT                                  |

## FURTHER DETAILS

|                    |               |
|--------------------|---------------|
| Article No.        | JT-RD6012-NT  |
| EAN:               | 4250236821030 |
| Customs Tariff No. | 85044083      |
