

Product data sheet

Face Shield

Item No. 2308536

Manufacturer Model number: GY0866

Product features

- Protective face shield for single use
- one size fits all head sizes in the range 54-64 cm
- Fixation on the head with elastic band
- PET lens, 0.28 mm, inside fog-free
- Soft foam inner padding ensures high wearing comfort even when worn for longer periods
- Helps to keep the face free from dirt and liquids
- Suitable to keep the face free from contamination of body fluids such as blood
- Not suitable for protection against mechanical hazards, such as flying particles with higher energy
- Space-saving flat-fold packaging

Warning

- This face shield protects against drops and splashes of liquids. Thus, it reduces the risk of a droplet infection. Due to its design, complete protection against viruses, bacteria or other biological agents is only given to a limited extent.
- This face shield is only to be used for the duration of the current health threat.
- Can be combined with face protection masks.
- Remove protective foil on the outside before use.
- Dispose after use. Reuse is at the discretion of the user.
