

TOOL SET

46-piece screwdriver tool set

Our high-quality, 46-piece tool set contains all the tools you need to repair fine electronic devices such as smartphones and games consoles.

In addition to a total of 42 bits made from high-quality S2 tool steel, it also includes opening and gripping aids. The bits are held magnetically in their plastic holder, which is pushed into the high-quality aluminum housing and held there by a spring mechanism.

Thanks to the magnets included, the plastic holder can also be used to magnetize the bits.
