Dog-Cat Chaser LED

For problems with cats and dogs

The Dog-Cat Chaser LED is designed to repel cats, dogs and even raccoons from your garden in a humane and convenient way. Cats and dogs are beloved pets, but when other people's pets enter your garden or even your house you have to draw the line.

The product uses a PIR motion sensor to detect unwelcome animals in a range of approximately 7 metres. When an animal enters the area, the Dog-Cat Chaser LED emits sounds that are inaudible to most human ears, but very annoying for cats and dogs. The strobe light is an additional deterrent for many animals. They will eventually look for quieter places to do their business.

Additional information:

- **Dimensions:** 17.5 x 12.5 x 8.5 cm (W x H x D)
- **Packaging dimensions:** 18 x 13 x 12.2 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT
- **Product images, scenery images**
- **Packaging units:** 20 units per package
