## Solar Cat and Dog Repellent

In case of problems with dogs and cats

Cats and dogs are the most popular pets in our households. Whether in the garden or in the living room, they are always welcome and loved. On the other hand there are areas that should be kept pet free like pantries, sandpits or ponds. The Gardigo Solar Cat and Dog Repellent is designed to drive pets away from these areas by using an ultrasonic signal. An infrared motion detector registers when an animal is in the vicinity and the ultrasound is switched on.

The extremely high pitched sound is initially perceived subconsciously by the animal, but in the long run it will feel quite uncomfortable with the sound and look for quieter whereabouts. The animals do not feel dislodged and the sound is not doing them any harm. The ultrasonic speaker should be mounted between 10 and 30 cm above ground level. The device can be switched between "Sound Only" and "Sound with LED flash" modes.

### Additional information

- **Dimensions:** 11.5 x 13.5 x 8 cm (W x H x D)
- **Packaging dimensions:** 12.2 x 13.8 x 8.4 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 24 units per package

### Specifications

- **Covered area:** approx. 7 m
- **Frequency:** approx. 23 kHz
- **Solar panel**
- **Motion detector:** 110° coverage, 7 m range
- **Sound pressure:** max. 80 dB
- **LED**
- **Voltage:** 3.2 V/500 mA
- **Rechargeable battery:** 4.8 V/500 mAh
- **With on/off switch**
