

Art.-No.: 62323

Bug Repellent

Two methods, one solution

The Gardigo Bug Repellent is an efficient repellent against ants, mice, silverfish and other bugs and vermin and will keep your rooms free of all these pests. The device emits ultrasonic frequencies and generates an electromagnetic field that these pests find so irritating, that they will move to a different area. Connect the device to a socket of your mains and it will generate an electromagnetic field within the room. The ultrasonic sound is emitted from the front of the device into the room. The electromagnetic fields and the ultrasonic sound can both not be detected by humans and are absolutely safe, but are highly effective against mice, silverfish and ants.

Additional information

- **Dimensions:** 7.5 x 7 x 12 cm (W x H x D)
- **Packaging dimensions:** 7.5 x 7.5 x 12.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT
- **Product images, scenery images**
- **Packaging unit:** 48 units per package

Specifications

- **Covered area:** approx. 230 m²
- **Frequency:** variable 20 – 40 kHz, solid 55 kHz
- **Electromagnetic field:** 180 sec. on/180 sec. off
- **LED:** Nightlight
- **Current consumption:** < 3.5 W
- **Voltage:** 230 V AC/50 Hz
