Solar Mole-Ant Defense Deluxe

Sends vibrations into the ground

Inserting a mole repellent into hard soil can be difficult. That's why the Solar Mole-Ant Defense Deluxe has a built-in hole drill. Once in the earth, the repeller emits sound and vibration. Moles, and other ground dwelling animals will feel disturbed. With practical battery change cylinder. The batteries are recharged by the large solar panel.

The Solar Mole-Schreck Dual combines two defense techniques in one device: A buzzer disturbs the animals with sound. In addition, a vibration motor vibrates the ground. Both are very annoying for moles and voles, because for the underground insect hunting and orientation in the dark tunnels they have a fine ear and a strong sense of touch.

Additional information

- **Dimensions:** 9.5 x 34.5 x 9.5 cm (W x H x D)
- **Packaging dimensions:** 10 x 35 x 10 cm (W x H x D)
- **Manuals included:**
DE, GB, FR, ES, IT, NL
- **Product images, scenery images**
- **Packaging unit:** 12 units per package

Specifications

- **Covered area:** approx. 1250 m², depending on soil conditions
- **Frequency:** 400 - 500 Hz
- **Solar panel**
- **Rechargeable battery:** 3 x AA, 1.2 V, 800 mAh NiMH
- **Material:** ABS, Aluminum
