Operating instructions for selected functions

CURRENCY CONVERSION – 1 EXCHANGE RATE

Definition of the following exchange rate:
 €1 = \$1.1227 US (exchange rate 1.1227)
 All versions function the same way and can be operated as follows:

AC SET % EURO RATE 1.1227
Press and hold for about 8 seconds

SET %

The exchange rate is saved.

Conversion of €100 to US\$.

100 LOCAL 112.27
 Amount in US\$

Conversion of \$100 US to €.

100 EURO 89.07
 Amount in €

The key label for setting the exchange rate varies slightly depending on the model. The following designations are available: [RATE SET] [RATE SET%] [SET] [SET%]

Pocket and desk calculators

Currency conversion

After the desired exchange rate is entered and saved, amounts can be easily converted to another currency. Converting a reference currency into any previously defined foreign currency at the touch of a button is especially advantageous on business trips and for international transactions.

PROFESSIONAL PERCENTAGE CALCULATION

Addition of 10% to the reference value 50 with interim display of the amount to be added during the calculation.

50 × 10 % 5

+

55

Subtraction of 10% from the reference value 50 with interim display of the amount to be subtracted during the calculation.

50 × 10 % 5

-

45

Pocket and desk calculators

Pro-percentage

Determine percentage-based surcharges and discounts with a separate display of the calculated value. Comfortable calculating percentage markups and markdowns and subsequent display of the calculated absolute value.
