Packing content

1x IB-AC620-CR, 1x SIM tool, 1x carabiner, 1x manual

Protection box for memory cards

The ICY BOX protection box is made of high-quality and environmentally friendly materials. It has a sturdy and resilient cover and custom-made and moulded foam inserts inside, which hold selected memory cards and protect them from shocks, dust and splash water. The silicone sealing ring effectively keeps dust and moisture away from the protective box. In addition, the ergonomic locking clip allows easy opening and closing. A reliable utensil for storing and transporting your sensitive memory cards.

Technical data

Model	IB-AC620-CR
Article no.	60751
EAN code	4250078170884
Brand	ICY BOX
Colour	Black/Grey

Notes

ATTENTION!

The silicone seal keeps out dust and moisture, but does not have an IP protection classification! The protection box should not be exposed to extreme environmental conditions.

ICY BOX IB-AC620-CR Protection box for memory cards

Rugged

Sensible protective housings are essential for the security of your data media. They help you to keep all your memory cards in one place, clearly arranged and easily accessible. The IB-AC620-CR has been designed to provide maximum protection and can be transported in a versatile way using the snap hook.

Perfectly tailored

The IB-AC620-CR is made of high-quality and environmentally friendly materials. It has a stable and robust housing with specially designed and moulded foam inserts, so that selected memory cards are inserted and protected against shocks, dust and humidity.

Protection is mandatory

ICY BOX has perfectly realized the challenge to store memory cards safely and to allow easy access. With the included SIM tool the cards can be safely removed from their specially shaped storage place. The protective silicone sealing ring and the ergonomic locking clip are the icing on the top for maximum protection.
