#### **DEUTSCH**

TE Internal #: ZPF000000000001953

Connector Contacts, Pin, Operating Voltage 115 VAC, Operating

Voltage 115 VDC, With Contact Retention Within Housing, Contact

Size Code 20

View on TE.com >

Connectors > Rectangular Connectors > Connector Contacts

Contact Type: Pin

Operating Voltage: 115 VDC

Contact Retention Within Housing: With

Contact Retention Type Within Housing: Spring

#### **Features**

## **Product Type Features**

Barrel Type	Crimp
Connector System	Cable-to-Cable
Sealable	Yes
Connector & Contact Terminates To	Wire & Cable
Configuration Features	
Compatible With Wire & Cable Type	Discrete Wire
Electrical Characteristics	
Operating Voltage	115 VDC
Contact Features	
Contact Features  Contact Type	Pin
	Pin With
Contact Type	
Contact Type  Contact Retention Within Housing	With
Contact Type  Contact Retention Within Housing  Contact Size Code	With 20
Contact Type  Contact Retention Within Housing  Contact Size Code  Contact Base Material	With 20 Alumel
Contact Type  Contact Retention Within Housing  Contact Size Code  Contact Base Material  Contact Current Rating (Max)	With 20 Alumel

Spring

**Mechanical Attachment** 

Contact Retention Type Within Housing

Dimensions	
Wire Size	.205 – .518 mm²
Usage Conditions	
Operating Temperature Range	-65 – 175 °C[-85 – 347 °F]
Operation/Application	
Circuit Application	Power, Signal & Data

## **Product Compliance**

For compliance documentation, visit the product page on TE.com>

EU RoHS Directive 2011/65/EU	Compliant
EU ELV Directive 2000/53/EC	Out of Scope
China RoHS 2 Directive MIIT Order No 32, 2016	No Restricted Materials Above Threshold
EU REACH Regulation (EC) No. 1907/2006	Current ECHA Candidate List: JAN 2021 (211) Candidate List Declared Against: JAN 2021 (211) Does not contain REACH SVHC
Halogen Content	Low Halogen - Br, Cl, F, I < 900 ppm per homogenous material. Also BFR/CFR/PVC Free
Solder Process Capability	Not reviewed for solder process capability

#### Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked. Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
