

.5-meter desk cable

StayGo mini USB-C Hub

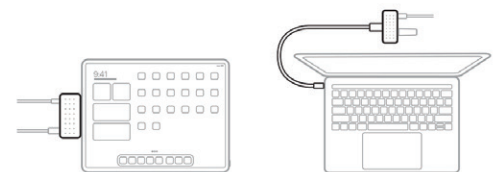

Compact USB-C Hub + .5-meter desktop cable

StayGo delivers the extra ports your tablet needs.

StayGo mini USB-C Hub makes editing video, photos or polishing presentations on your iPad Air or iPad Pro much more convenient. How? By giving you 3 more ports to get things done. With a headphone jack, USB-A, USB-C (for pass through power) and an HDMI port you can connect and power your most essential accessories. Connect StayGo mini directly to your iPad or use the included .5-meter long cable to place the hub and connections at desk level when iPad is attached to the Magic Keyboard or on a stand. The desktop cable is also great to use StayGo mini with MacBook, as a compact hub that fits anywhere.

Key facts:

- USB-C hub connects peripherals to your iPad or MacBook
- Four ports: headphone jack, USB-A, HDMI, USB-C
- Pass-through power to charge or power accessories
- Connects directly to iPad or below with the included cable
