mAh**

WORLD'S FIRST POWER BANK WITH A NORDIC ECOLABEL

- Tough threshold values for heavy metals in batteries.
- No use of PVC and a number of flame-retardants in plastic
- CSR policy to ensure responsible use and sourcing of limited raw materials and “conflict free” minerals
- Electrical-, safety-and quality testing of batteries/cells, portable-and battery chargers
- Recyclable design of the portable charger

**WITH
SUSTAINABILITY
IN MIND**
