

ESD antifatigue workplace mat PUR

Application

Finds its application mainly in dry standing and walking workstations and moreover in all ESD Areas.

The surface has a flattened profile, thereby reducing the rotational resistance and is easy passable.

Specification Data

Material	PUR = polyurethane foamed
Surface	flat disc
Standard dimensions	approx 66 x 96 cm incl. bevel special design on request
Weight	2780 g
Thickness	12 mm
Resistance to ground	$10^5 - 10^7$ Ohm, according to IEC 61340-5-1, according to ANSI/ESD S/.1-1994
Fire retardant	flame resistant according to DIN 4102/B1
Colour	black
Elasticity	excellent
Guarantee	3 years
