

EBI 12 Starter Kit SK 6200

FOR TEMPERATURE AND PROCESS MONITORING

NEW

EBI 12 Data Logger Starter Kit SK 6200

SK 6200 consists of:

- 1x EBI 12-T237
- 1x Software Winlog.pro
- 1x Interface IF 200

EBI 12 Data Logger Starter Kit SK 6200

The **Starter Kit SK 6200** contains all necessary parts of the ebro portfolio to get started with temperature and process monitoring. The **high-quality and robust** design of the **EBI 12-T237**, as well as the high precision and fast response time make the logger ideal for the evaluation of sterilization and pasteurization processes. The **Winlog.pro evaluation software** enables the integration of several data loggers as well as the evaluation and visualization of the recorded data. Thanks to the four readout ports of the **IF 200 interface**, a subsequent increase in the number of loggers is easily possible.

Measurement range	-40 °C ... +140 °C (-40 °F ... + 284 °F)
Accuracy	± 0.1 °C (0 °C ... +140 °C)
Sampling rate	1 s ... 24 hours
Data memory	27,840 measurement values
4-point factory calibration certificate	-20 °C, 0 °C, +60 °C and +134 °C
External temperature probe	100 mm length, Ø 3 mm, axial pointed, M5 Thread

Type	Description	Part No.	Discount
SK 6200	1 x EBI 12-T237 data logger + 1x Winlog.pro + 1x IF 200	1250-6200	EB1
