Mounting option

This small cable dispenser is optimal for use in the workshop, laboratory or for hobby and garage. The solid steel shaft is held by a black metal frame - the construction is extremely stable and durable. Optimal for use in harsh industrial environments or laboratories and repair shops.

Cable spools can be attached to an effective length of the shaft of 19.5 cm - 10 holes are available, each with a grommet for leading out the individual wires ( $\varnothing$  max. 3.5 mm). In addition to cable spools up to 12.4 cm in diameter, small tubes or solder can also be inserted - the core diameter of the shaft is 1.8 cm. In addition to being used as a free-standing stand-alone unit, the cable spool holder can also be optionally mounted on perforated walls or walls through the mounting holes on the back (wall plugs and screws for wall mounting are included).

**Technical data:** Dimensions: (L x H x D) 20 cm x 12 cm x 13 cm • Maximum usable length of the shaft: 19.5 cm • Core diameter of the shaft: 18 mm • Maximum usable coil diameter: 124 mm • Color: Black • Material: Steel • Number of feed-through holes: 10 • Diameter of feed-through holes: 3.5 mm • Incl. feet and wall mounting material • Mfg-Part-No.: 23CA258 • EAN/GTIN: 4260732285410.

Optionally available: complete set with cable dispenser and cutting pliers:
