Manufacturer Part No.: T24CA010 ... 018

# Polyester Braided Sleeving (Reel)

RoHS

REACH Compliant

This cable bundling sleeve is the optimal and cost-effective solution when it comes to protecting and bringing together cables and wires. This flexible cable sleeving can also be used as an abrasive protection and as an inhibitor of animal bites.

The tightly woven braid hugs the contents and keeps them together, protected and clean. The material is weather resistant, durable and looks good doing it! The application is very simple and can be customized by shortening to the desired length. The cut can be made using the hot cutting method or by means of scissors / string cutter and subsequent heat sealing of the open ends. It is possible to lead out individual cables on the track through the slot. The rolls are ideal for industrial requirements or large projects.

**To prevent fraying, the sleeve should be cut with a hot cutting tool!**

**Technical data:** Material: polyester braid • Temperature range: -55 ... 155 °C • Melting temperature: 230 °C • Color: black • Tensile strength max. 10.4 MPa • RoHS compliant, REACH compliant, halogen free • Flammability class based on UL94HB.
