

EX505A-K CAT IV-600 V Multimeter and AC Voltage Detector with 8-Piece Test Lead Kit

The EX505A-K CAT IV-600 V multimeter and AC voltage detector with 8-piece test lead kit is a comprehensive solution for industrial electrical testing needs. This kit features the rugged EX505A multimeter, boasting a CAT IV-600 V safety rating and True RMS accuracy. The multimeter is designed to endure challenging environments with its waterproof and dustproof IP67-rating and 2 m (6.5 ft) drop-proof housing. The kit includes a versatile DV25 AC voltage detector, which offers dual range capabilities (24 V AC to 1000 V AC/100 V AC to 1000 V AC), along with audible and visual alerts. The set is complete with a professional 8-piece test lead kit, a Type K thermocouple bead probe, an input adaptor, and a magnetic hanging strap. All these components are conveniently supplied in a soft carrying case, which not only protects the equipment but also keeps it organized. The kit ensures 1000 V input protection on all functions, providing a reliable, safe, and complete toolset for professional electrical testing and troubleshooting.

Designed for: Electricians, HVAC Technicians, and Benchtop Technicians

Kit Includes

- **EX505A** CAT IV-600 V, 6000 count display, waterproof and dustproof (IP67) multimeter with True RMS functions
- **DV25** AC voltage detector (24 V to 1000 V and 100 V to 1000 V AC) + flashlight with audible/visual indication, double-molded housing, and CAT IV-1000 V safety rating
- **TL808** 8-piece professional test lead kit with CAT III-1000 V safety rating
- Magnetic hanging strap
- Supplied in a soft carrying case that provides protection and organization for the meters whenever they are needed

Drop proof 2 m (6.5 ft)
