

Heat-Shrink-Tube Reels 3:1

Item-No.: 24CA282 ... 24CA295, 25CA624 ... 25CA651

These high-quality shrink sleeves are particularly suitable for service workshops, electronics technicians and applications with a high demand for shrink tubing. The heat-shrink tube is wound onto a cardboard reel and can therefore be cut to length individually. Various available nominal diameters open up a wide range of applications. The version with inner glue and a shrink ratio of 3:1 is ideal for applications with high demands on the wrapping.
