These self-adhesive hook and loop tapes are ideal for fixing tasks on suitable surfaces. The tape can be shortened individually with scissors. The reliable 3M adhesive surface ensures a stable hold and a long service life. It is important that the surfaces are smooth and clean so that the adhesive film can develop its full holding power. Basic strength is achieved shortly after application - final strength is achieved after a maximum of 24 hours. The black design can be unrestricted and inconspicuous in many usages.

Technical data: Material: Polyamide • Temperature range: -20 ... 85 °C • Melting temperature: >250 °C • Color: black, white • RoHS compliant, REACH compliant.
