DIN compensating cable KNL ST XX x 2 x 1,5	valid from : 01.12.2008

Application

The compensating cables KNL Version ST XX x 2 x 1,5 mm² are twisted paired PVC insulated cables with aluminium foil screen which transmit the thermoelectric voltage of NiCr/Ni thermocouples. They are for flexible use and fixed installation in dry and damp rooms with medium mechanical load. They may only be installed outdoors with UV protection and in observation of the max. permitted temperature range. The overlapping foil wrapping screens the cores against electromagnetic interference.
