

VideoScope XL

Compact inspection camera for visual inspections of areas which are difficult to access - recycled material is used for sustainability

With the VideoScope XL, specific problems can be localised in places that are difficult to reach. The Video Inspector shows what is behind or in objects, walls, pipes, cables etc., even under very poor lighting conditions. The small, waterproof camera head allows a variety of applications. The image always remains clearly discernible on the monitor through rotation and mirroring. The housing is largely made of recycled material, making a valuable contribution to sustainability.

- Sustainable design: large proportion of the housing is made from recycled plastic
- Easy problem localisation behind or in objects, walls, pipes, cavities
- Small camera head, ideal for places that are hard to reach
- Clear visibility even in the worst conditions
- Waterproof camera head and cable for use in sanitary areas
- Resistant to petrol and diesel
- Image clearly discernible through rotation and mirroring
- Easy-to-read display

TECHNICAL DATA

Diameter Camera Head	9 mm
Camera Resolution	640 x 480 pixels
Field of View (FOV)	53°
Depth of Focus (DOF)	3 ... 7 cm
Screen Type	3,2" Colour TFT
Display Resolution	320 x 240 pixels
Image Format	JPEG
Length of Probe	3.5 m
Illumination	5 brightness levels
Digital Zoom	2x digital zoom in 20% increments
Power Supply	4 x 1.5V LR6 (AA)
Weight	(incl. batteries)

SCOPE OF DELIVERY
