Fish Deeper app

2. Register
an account

3. Download
an offline
map of your
location

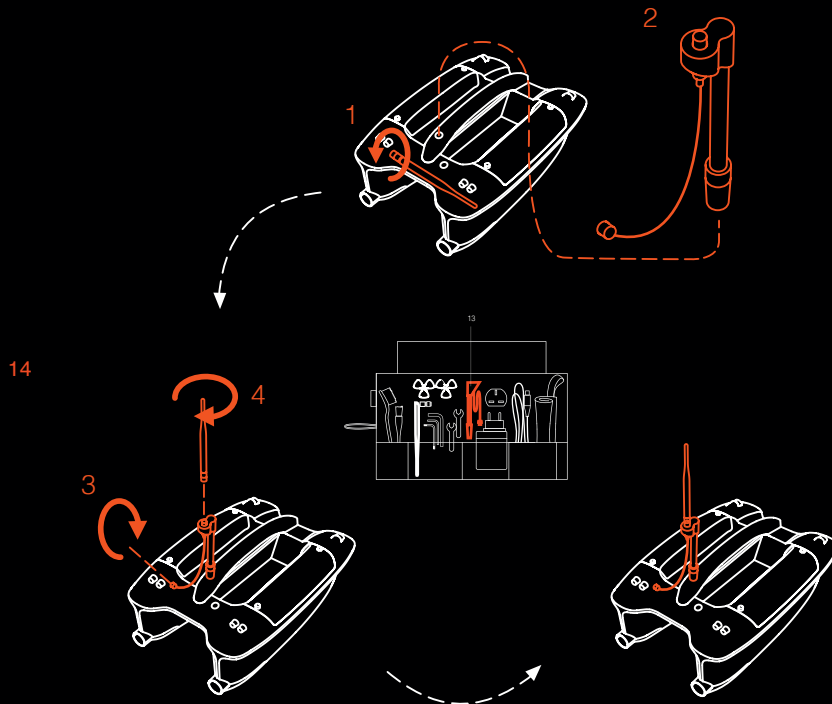

Unfold antennas

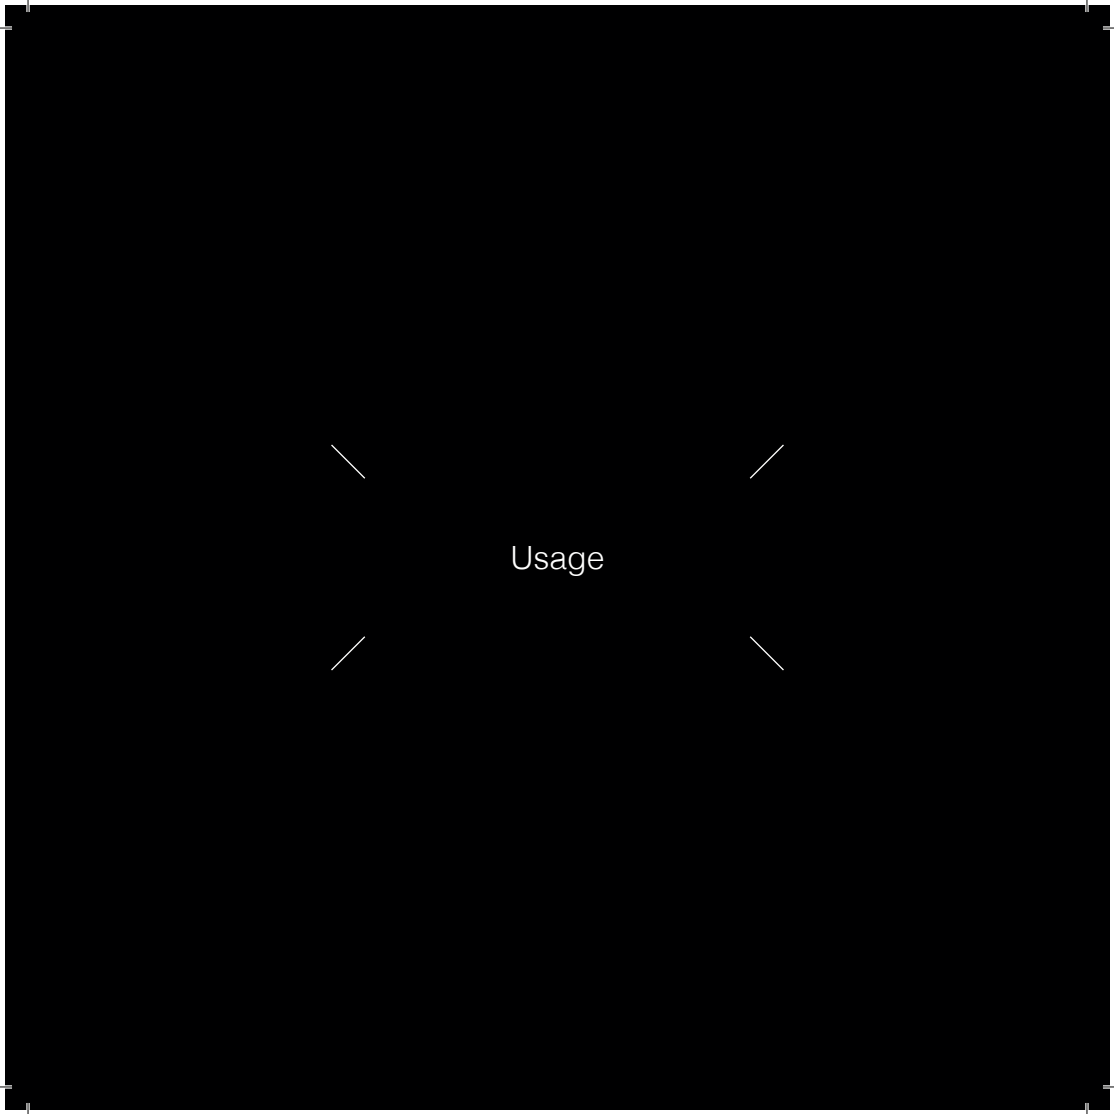

13

Unfold antennas straight
and hold controller at waist level or higher.
Use tripod for reliable connection.

Extend connection

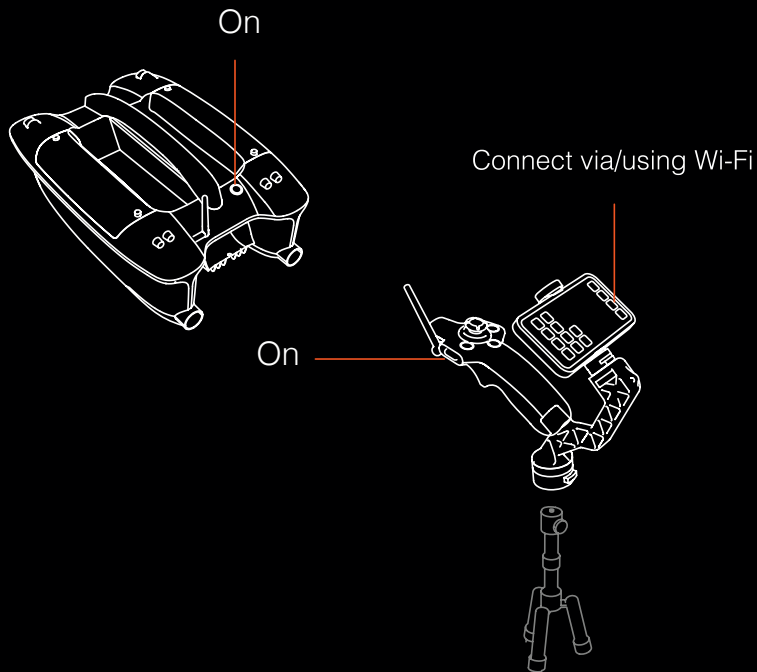

For optimal performance and stable connection, use the antenna extension module when operating your Deeper Quest beyond 350 meters /1150 ft or in rough conditions

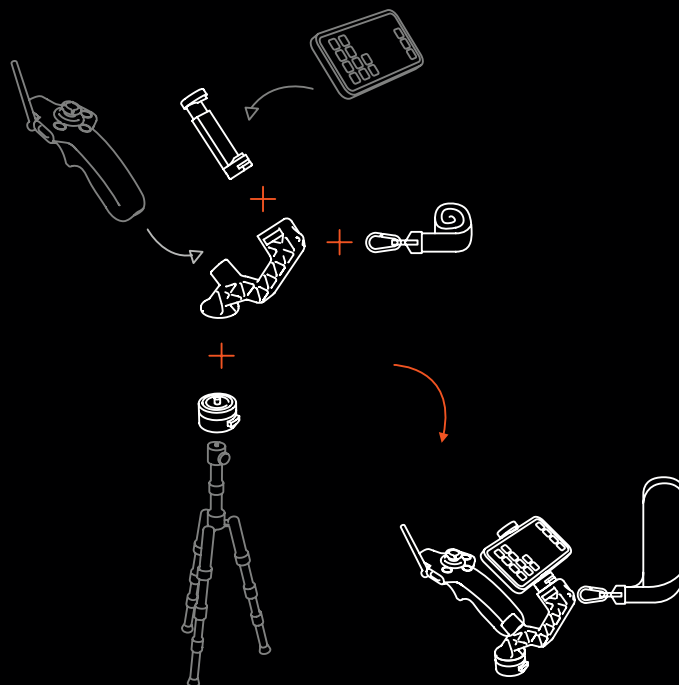

Usage

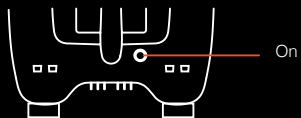

Switching on & Wi-Fi connection

Phone mount assembly

Connect Wifi

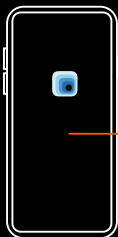

Controller
connects to
Quest boat

On

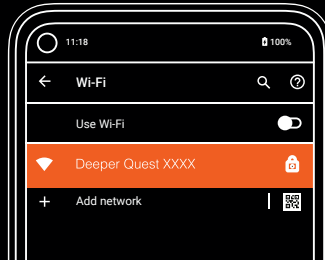

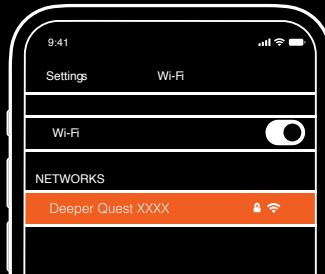

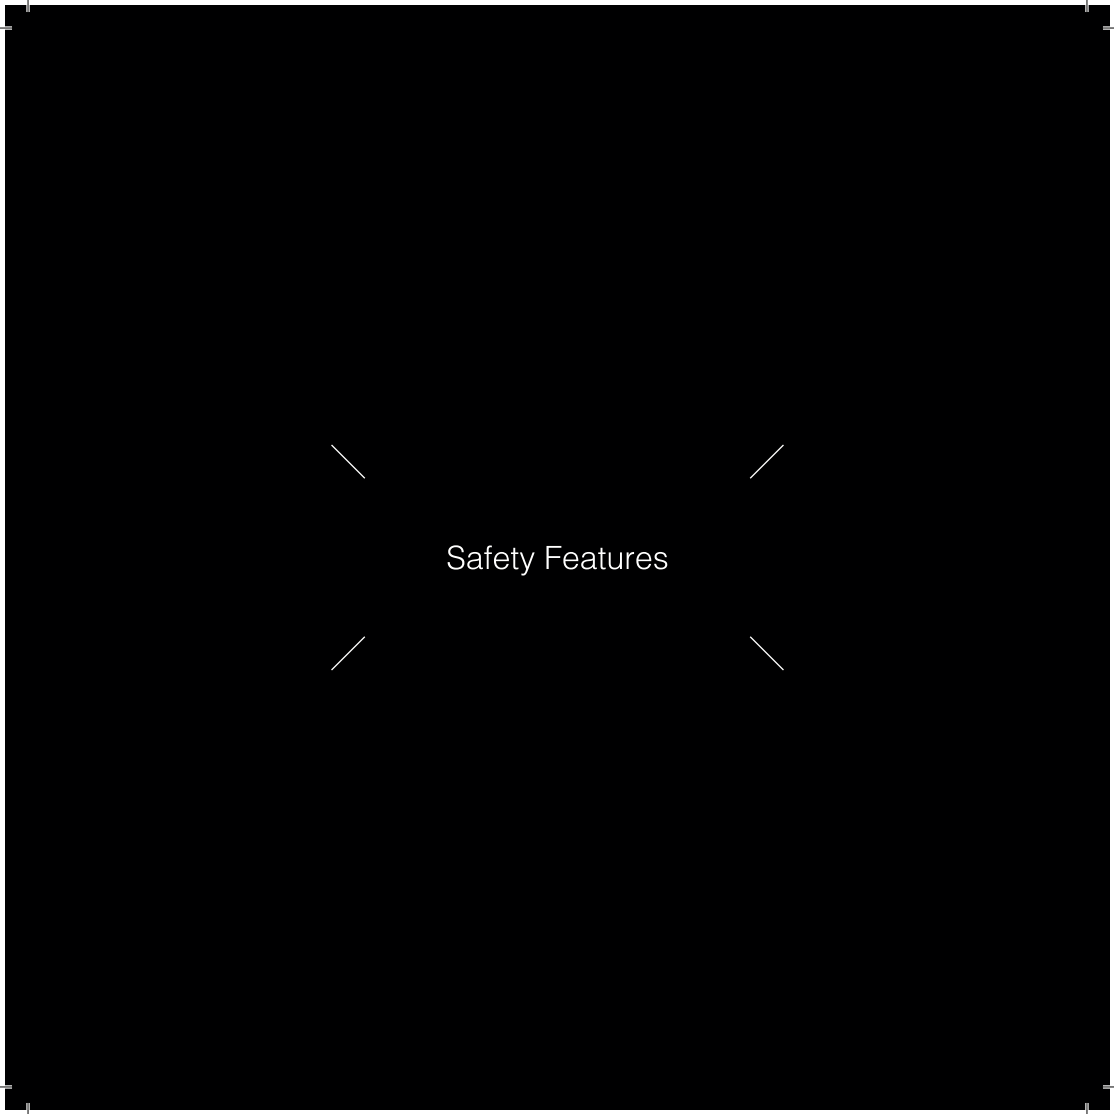

Phone connects
to controller

Connect via wifi
to controller

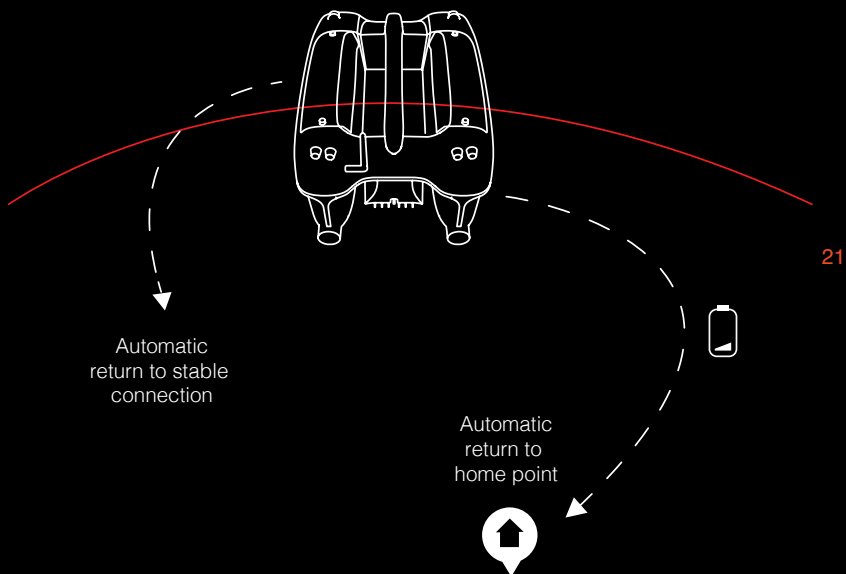

Connect to Quest Controller Wifi

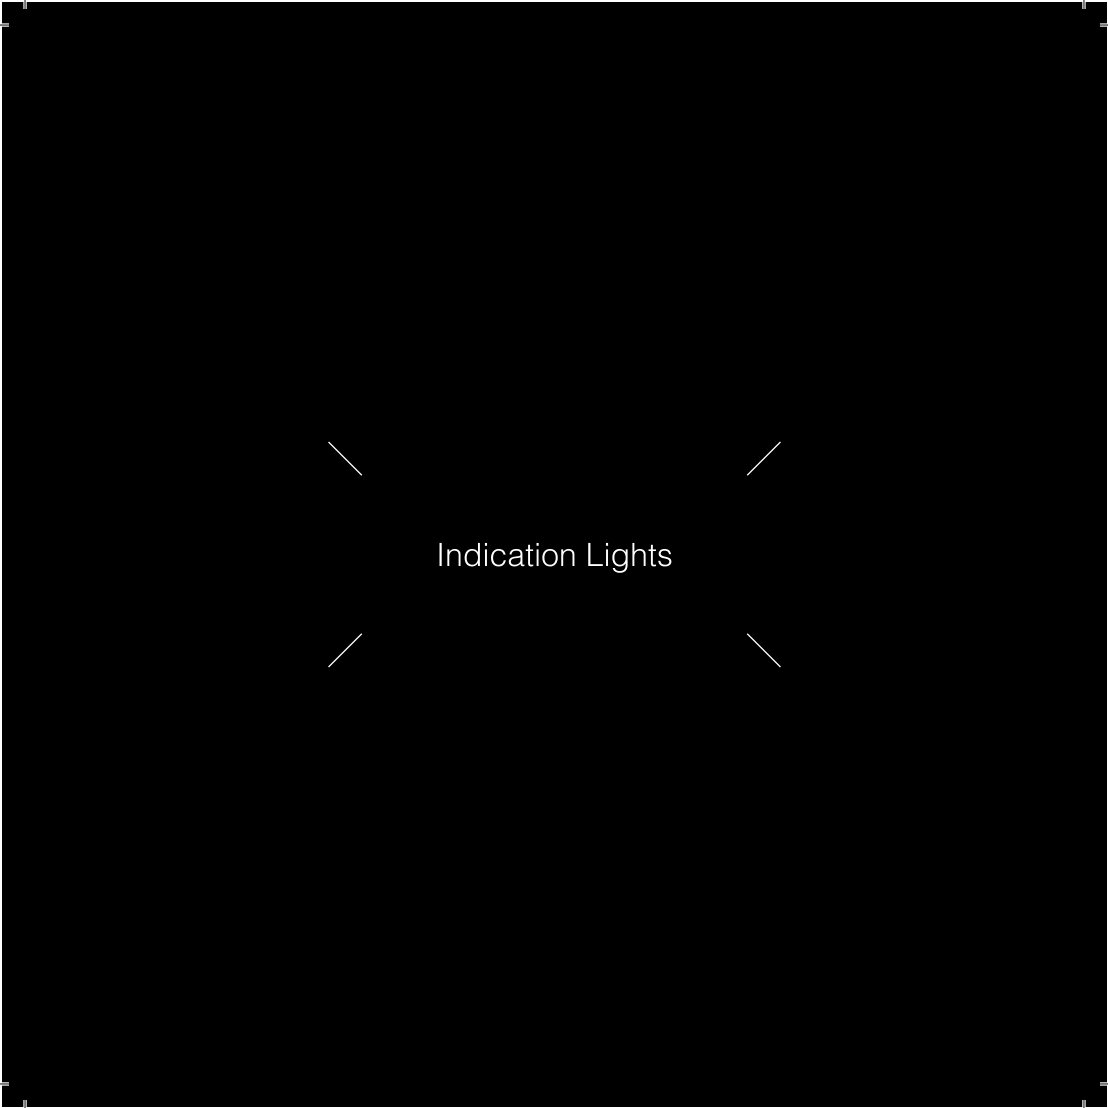

Safety Features

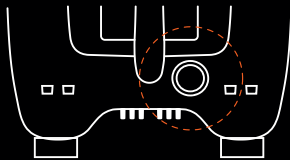

Out of range & Low Battery

Indication Lights

Battery charging lights & status

	Charging blinking	Battery state
100% - 10%		
10% - 0%		

	Charging blinking	Battery state
100%-25%		
25%-10%		
10% - 0%		

Connecting Quest boat & Controller

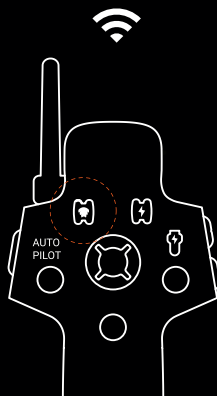

White headlights

Red tail lights

24

Connecting
or disconnected
(Blinking)

Connected
(always on)

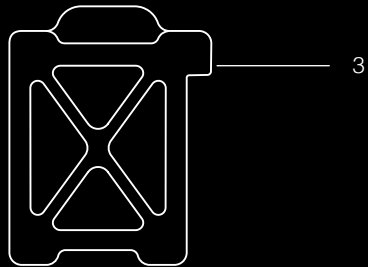

Emergency
bad connection

Weak
Connection
(always on)

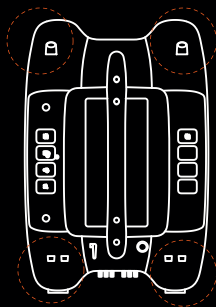

Battery light status

25

1 battery indication lights, 2 battery indication button, 3 power input contacts

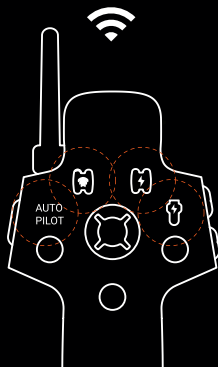

Left, right, rig hopper opens

Blinks 2 times

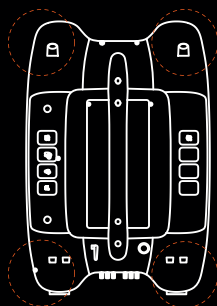

26

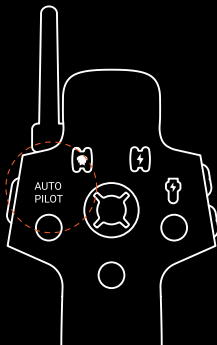

Blinks 2 times

Auto Pilot

Recovering

Auto pilot ready

No GPS

Autopilot active

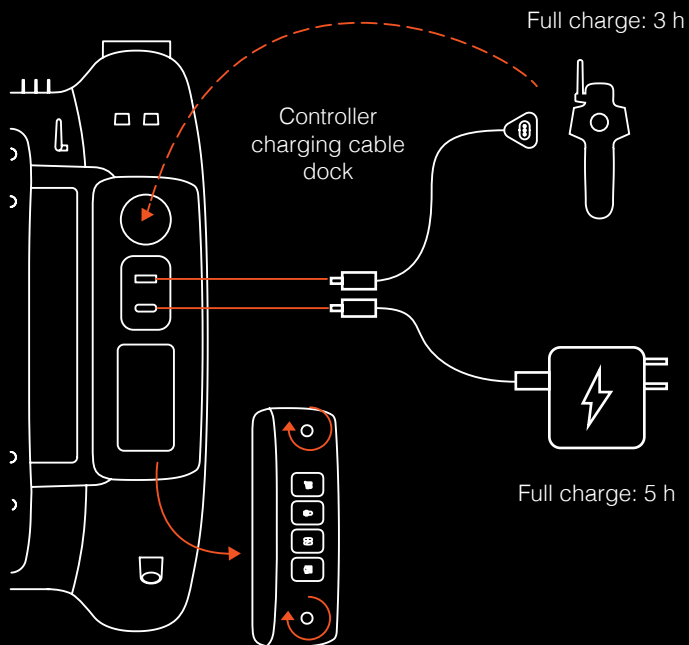

Recovery
mode active

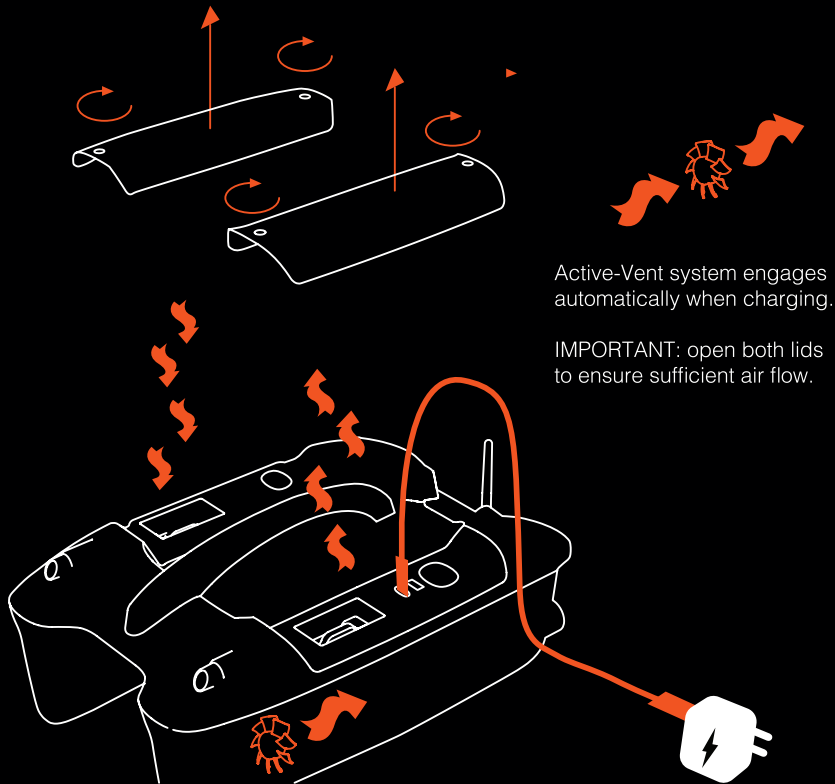

Maintenance and
warnings

Charge at least every 6 months
