

Art.-No. 62326

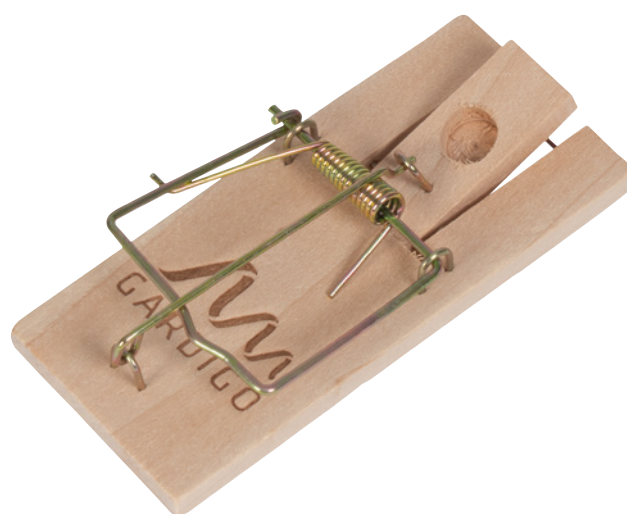

Wooden Mouse Trap

The pest control classic

Spreadable baits such as peanut butter, chocolate and hazelnut spread or our Mouse & Rat Attractant (Art. No. 62370) are perfect for luring mice into the trap. And this is exactly the kind of bait which this trap is optimized for. Simply put the bait into the bait trough on the actuator.

The trap is easy to use, should be placed on the pathways that mice frequent and then tensioned. This will help you control your pest problem quickly.
