

Coffee To Go LX-060

- Compact size and lightweight design: Ideal for on the go, traveling, camping or for use in the office. Fits in backpacks or handbags and saves space.
- Battery-powered: The rechargeable battery enables operation without a plug socket, so the machine can be used anywhere, e.g. in the car, when camping or during outdoor activities. Long battery life for several cups.
- Versatile compatibility: The machine can be used with both capsules and ground coffee, giving you the choice between convenient capsules and freshly ground powder.
- Fast heat-up time: Thanks to fast heat-up technology, coffee is prepared in just a few minutes, ideal for a quick coffee break on the go.
- User-friendly operation: Simple one-button controls that allow the machine to be operated with minimal effort, without complicated settings.
- Rechargeable battery: The batteries are rechargeable via USB-C, allowing for easy handling and flexibility when charging.
- High-quality materials: Robust, lightweight housing made of ABS + 304 stainless steel + PA/GF for a long service life and easy cleaning.
- Water tank: A sufficient amount for a small cup of coffee / espresso (60ml).
- Product size: 83,5 x 83,5 x 245,5 mm
- Cup capacity: 120 ml
- Material: ABS + 304 stainless steel + PA/GF
