

wacom® MovinkPad

Why Wacom MovinkPad 11?

A quick guide on how to answer some of your customers' questions about choosing a Wacom MovinkPad 11.

What's the difference between this and general tablets?

"If you're serious about drawing, Wacom still gives you the most natural pen experience, now in a compact all-in-one Android device."

Why is it better than drawing tablets from other brands and our predecessors?

"Everything you loved and expected, now lighter, faster, and more flexible – and no fans or heavy cables."

Why I need a MovinkPad when I own a pen tablet or display?

"It's a 'unplug' supplement to your existing desktop-focused pen tablet or pen display, allowing you to capture ideas anywhere with same trusted pen feel."

The professional tool experience

- No pairing, no charging, Pro Pen 3 is battery-free and always ready to use;
- The authentic drawing experience of a professional Wacom pen display or tablet is now available in a fully mobile form;
- Superior pen feel, EMR pen technology offers zero jitter and greater precision, giving you unmatched control and reliability;
- Consistent experience anywhere, one pen feel indoors and out, seamless transition between Wacom and Wacom;
- Made with Wacom's 40+ years of experience in creating innovative and reliable creative products;
- Professional tool – Pro Pen 3 is included, no need to purchase additionally.

Unparalleled "pen on paper" feel

- Textured glass gives unmatched control and tactile feedback, unlike glossy screens;
- Different from attachad 'paper-like' protective film, the pen glides smoothly on the display, but with just enough "grip";
- AG provides clear visibility, eliminate annoying and distracting glares;
- AF coating keeps the screen cleaner, reducing smudges during long creative sessions.

The Eco optimised for drawing

- Not a general-purpose tablet – this is purpose-built for creators;
- No lock-in – use your favorite Android drawing apps;
- Full flat back design without camera bump;
- Supports 3rd-party stationery-style EMR pens for added funs and flexibility;
- Only pay for what matters: drawing.

Built-In Creative Tools

- Wacom Canvas: Tap-and-draw from lock screen. Export sketches directly to Clip Studio Paint for more detailed work;
- Wacom Shelf: Access all artwork regardless of location; supports TIFF, BMP, Clip Studio formats, keeps your references and finished works close at hand;
- CLIP STUDIO PAINT 2 YEARS LICENSE provides full featured in one of the most powerful creative tools, including thousands of brushes and professional-grade features.

Optimised Display for Creators

- 11.45 inch, 2200×1440 resolution (230 PPI) for ultra-sharp detail;
- Factory-calibrated with industry-standard color accuracy, keeps colour consistent with desktop monitors;
- With 99% sRGB coverage, colors look vivid and true – just as you intended in your artwork;
- Up to 90Hz refresh rate ensures smooth scrolling, panning, and pen tracking, which responds pen input at 270RPS – fast, fluid strokes with no lag;
- Glass is etched with precision, avoiding the "sparkle" or graininess that blurs fine detail. Maintains crisp lines and textures – great for line art, inking, and photo-based work.

Compact and lightweight

- Easier to carry than MobileStudio Pro or Hybrid – real mobility now, yet more powerful than other compact drawing tablets;
- Less noise, more focus. It's now fanless, quiet, and distraction-free;
- Instant start, no boot time, no OS maintenance – tap and draw;
- Better battery life, Energy-efficient Android system means longer creative sessions;
- Standardised USB-C PD power source, cross usage with your daily devices. 2.5hrs to fully charge.

Upgrade Wacom Pro Pen 3 experience

- 3rd Generation Wacom Pro Pen technology, same pen technology as Wacom's professional line;
- Pro Pen 3 is customisable pen with adjustable weight, grip, buttons – fits your hand and style;
- Sharper pen tip shape for clearer visibility during drawing;
- Updated chipset for superior accuracy & report rate.

Still Wacom's feeling

- Pen consistency across all Wacom's desktop gear;
- Electro-Magnetic Resonance technology it never needs to charge;
- 8,192 levels of pressure sensitivity, the powerful pen delivers better precision and control;
- Built-in nib holder eliminates worry over spare nibs.

All-in-one

- No PC, Mac, or laptop required, no external power or cables needed;
- Draw freely on the go using built-in tools or install your favorite Android apps for sketching, notes, coloring, sharing and etc.;
- Rear camera to capture reference images and edit directly;
- USB-C port for connecting flash drives or card readers, including exchanging files or importing photographs to retouch right away;
- High-res display and stereo speakers for breaks or creative inspiration;
- Draw on the couch, in a café, or on-site – same quality, no compromise.

Wireless backup, continue and share

- Back up your creations to the cloud anytime. Start digitally from the beginning anywhere – no scanning required;
- You can return to your studio and pick up where you left off through common cloud apps, with consistent colours;
- Share instantly to your creative community to get feedback or likes;
- Share your artwork via social apps or Android's Quick Share easily and conveniently.

Accessories enrich experience

- Compatible with all other Pro Pen 3's customisable apmts and Pro Pen 3E – the Pro Pen 3's variant with eraser;
- Optional case with stand, which is a flip case with integrated stand, and a slot for pen;
- Supports 3rd-party stationery-style EMR pens for added funs and flexibility.

FOR WACOM AND AUTHORISED RESELLERS ONLY.
PLEASE DO NOT DISSEMINATE WITHOUT CONSENT.
