

MICROPROCESSOR CHARGER

for all type of the 6V / 12V
lead acid batteries

A professional, fully automatic charger for 6V and 12V batteries with a capacity range of 4 to 120Ah. Perfect for charging and maintaining batteries in cars, motorcycles, lawn mowers, and boats.

Equipped with a modern microprocessor that automatically selects the optimal charging mode and switches to maintenance mode, extending battery life and ensuring it's always ready for use.

Technical specifications:

Charging Current: **1A / 3.8A**

Battery Voltage: **6V / 12V**

Power: **70W**

Input Voltage: **220–240V AC, 50–60Hz**

Charging Type: **6-stage, fully automatic**

Supported Battery Capacity: **4Ah – 120Ah**

Battery Types: **All types of 6V and 12V lead-acid batteries (wet, AGM, gel, maintenance-free)**
